at 571 Orange Avenue, Yuma, Arizona, telephone 3-9616, one block off Highway 80. Clymer's is in a former residence, converted to a very fine restaurant. Luncheon is from 11:30 to 1:30 and dinner from 5:00 to 8:00. No breakfast. We enjoyed our stay in Yuma, and should add that by the time we got to Del Rio and Laredo in Texas, we had become accustomed to Mexican food and so if we ever return to Yuma we may go right in and be at home in that Mexican eating spot.

Deadline for copy for the Classified Page, is 12:00 noon on each Wednesday. Please have your copy in by that time.

IN MEMORIAM

In sad but loving memory of our dear husband, father and grandfather, W. Ray Baldwin, who departed this life five years ago, July 13, 1951.

In the graveyard softly sleeping,
Where the gentle flowers wave;
Lies the one we love so truly,
In his lonely silent grave.

Our hearts still ache with sorrow,
Our eyes shed many tears,
God only knows how we miss him,
At the end of these sad years.

It's lonesome here without him,
And sad the weary way,
And life has not been the same to us,
Since God took him away.

We think of him in silence,
And we often call his dear name;
There is nothing left to answer,
But his darling picture in the frame.

Our dear one has gone, but not forgotten,
Never shall his memory fade;
Sweetest thoughts forever linger,
Around the grave where he is laid.
He shall sleep, but not forever,
There will be a glorious dawn,
On that resurrection morn.
—Sadly missed by his dear wife, children and grandchildren.

IN MOTOR TRANSPORT
GMC
LEADS THE WAY
Year by to Blue Chip value

Now-GMC gives you

a bonus of up to 3 gallons in every tankful!

TALK about low-cost GMC ownership! With its new high-ratio cruising axle, a Blue Chip GMC pickup now gives you up to 17.8% better gas mileage. That's 3 gallons' worth of bonus miles in every filling!

And you get far better road speeds, too, from an easy-stroking, unstrained engine. In short, from a mere $10.50 axle option, GMC now gives you the advantages of a $125 overdrive.

Add this to the super-efficiency of a GMC 180 hp V8 engine—to the moneysaving advantages of Hydra-Matic Drive*—and this fact is clear:

The operation and maintenance savings of Blue Chip features can bring the over-all cost of a half-ton GMC down to the level of—*or below*—the cheapest stripped-model truck on the market.

Come in *today*—for the rest of the story.

IN MEMORY

IN memory of our Father and Husband, Holmesy Inge, who passed away 6 years ago, July 7th.
Dear Holmesy, you are gone but not forgotten,
By the ones who loved you best;
God needed another flower for his garden,
So he took you home to rest.
A loving Husband and Father,
So true, so kind,
No friend on earth like him we find.
For all of us he did his best.
May God grant his eternal rest.

Cool Summer Specials

Cool foods are so generally satisfying at cottage cheese. You can use so many ways—raw or cooked, cold or frozen, alone or mixed with other foods.

That's more, cottage cheese is a low in digest, high in all the health-giving nutrients for which milk is famous. Protein-wise, it's worth its weight in meat. Costs less than 10c a pound, too; and you can always have along with the milk or at your meals. Keeps eating spoon, sugar, and it stays fresh for a week or two.

Here for yourself the good flavor and texture of cottage cheese in the following recipes.

Cottage Cheese Pie

1 c. fine crumbs (zwieback, graham or graham crackers)
¼ c. soft butter or margarine
2 tblsp. sugar
2 tblsp. apricot marmalade
2 tblsp. crumbs and sugar. Blend butter or margarine and apricot marmalade. Add to crumb mixture and blend thoroughly. Press this is an even layer over bottom and sides of a 9-inch pie pan. Chill up a rim of crush around the edge of pan. Chill.

Pie Filling

1 c. sugar
1 envelope (1 tblsp.) unflavored gelatin
½ cup milk
½ sugar
1 tsp. salt
1 c. creamed cottage cheese
(1 lb.)
1 tblsp. grated lemon rind
2 tblsp. lemon juice
½ c. heavy cream, whipped
¼ c. sugar
¼ c. apricot marmalade.

Mix together sugar and gelatin in top of double boiler. Add milk. Cook over boiling water, stirring until thick. Remove from heat. Force cheese through a sieve. Add cheese, lemon rind and juice. Fold in whipped cream. Beat the two egg whites until they hold soft peaks. Gradually add the 1-4 c. sugar. Beat until very stiff. Fold into cheese mixture. Pour cheese filling into crust. Chill until firm. Spread top with marmalade.

Fruit - Cottage Cheese Ring

1 can (1 lb.) fruit cocktail
1 pkg. (3 oz.) lime-flavored gelatin
1 c. hot water
3-4 c. ginger ale
2 tblsp. lemon juice
2 c. creamed cottage cheese
2 tblsp. mayonnaise
1-4 c. chopped pecans
lettuce

Drain fruit cocktail. Dissolve lime gelatin in the 1 c. hot water. Add ginger ale. Divide into two equal parts. Add lemon juice and drained fruit to one part. Pour into 5 1-2 cup ring mold. Chill until firm. Blend together cottage cheese and mayonnaise. Add pecans and remaining gelatin. Pour over congealed fruit layer. Chill until firm. Makes 8 servings. Serve with minty mayonnaise made by combining 2 tblsp. finely chopped mint leaves and 1 tsp. lemon juice. Mash leaves a little with tip of spoon to extract flavor. Add 1 tsp. grated lemon rind and 1 c. mayonnaise or mayonnaise-type salad dressing.

ALLERGIC TO HUSBAND

Santa Monica, Calif.- Mrs. Virginia H. Miller, of Beverly Hills, testified in divorce court that she was allergic to her husband, Daniel G. Miller, and displayed a rash to prove it. A doctor testified he was called upon to treat Mrs. Miller for what he termed a "diffuse rash" covering her entire body. He said he concluded her malady stemmed from the "highly nervous state" she appeared to be in since her marriage in 1953.

Crowding Plants Frequent Fault

A number one fault of beginners in the vegetable garden is crowding plants. Garden specialists say that many gardeners fail to thin out the seedlings so each remaining plant has enough room to develop properly. He suggests thinning plants of row crops out to stand one inch apart. As they grow, remove alternate plants, and so on until the best spacing is achieved. Many of the excess root and leaf plants can be used on the table. Follow directions on seed packets and in your planting guide for recommended spacings for different crops.

Food Preservation Instructors Attended Meeting Here

Home economics teachers, instructors of vocational agriculture, and cannery instructors from Amherst, Appomattox, Bedford, Buckingham, and Campbell Counties attended a one-day working conference on food preservation in the Appomattox School - Community Cannery here Monday, July 2. Purpose of the conference was to bring to persons working in the vocational agriculture - home economics food production and conservation program the latest developments in procedures and techniques in preserving food by canning and freezing.

H. B. Pack, instructor of vocational agriculture in the Appomattox High School, stated that the conference was the first in a series of five similar programs scheduled to coincide with the opening of the 1956 canning season in Southside Virginia. "Appomattox County school canneries began daily operation on July 3. Other canneries in this area will open either this week or next," he stated. Mr. Pack, Miss Laura Mottley, A. H. S. home economics instructor, and R. N. Ashworth, assistant vo-ag instructor, were in charge of local arrangements for the conference.

O. L. Waddell, vo-ag instructor in the Rustburg High School, was chairman of a panel discussion which led off the day's program. Other panel members were G. M. Hodge, principal of the Rustburg High School, and Mrs. Sarah Morey, instructor of home economics in the Brookville High School.

Mrs. Emily Rickman, district supervisor of home economics education, A. L. Yeatts, coordinating teacher of vocational agriculture in Pittsylvania County; Miss Jacqueline Osborne, Virginia Electric and Power Company, home economist, and W. C. Dudley, area supervisor of vocational agriculture, served as leaders during discussion, demonstration, and practical work periods in which nearly forty instructors participated.

Cannery instructors attending from Appomattox were Mrs. Emma Lemon and Walter Phelps. Mrs. Lemon will advise patrons of the Appomattox cannery on selecting, preparing, packing, and exhausting foods for canning. Mr. Phelps will provide instruction in sealing, processing, cooling, and storing foods conserved by canning.

Production and use of newsprint continues heavy.

POST OFFICES TO GET PENS

On or before September 1, every one of the 37,863 United States Post Offices will be supplied with ball-point pens for use on desks in Post Office lobbies, Postmaster General Arthur E. Summerfield announced.

It was revealed earlier this year by the Postmaster General that the experimental use of ball-point pens in Post Office lobbies had proved satisfactory, and that they would go into general use around Labor Day.

Postmaster General Summerfield announced this week that contracts were signed, after competitive bidding, by pen manufacturers, for 500,000 ball-point pens, for 500,000 pen refills, and 360,000 metal chains for attaching the pens to the desks.

According to specifications, the pens will be green in color, and will be capable of writing in black ink, without refilling, a continuous line at least 8,000 feet, or nearly a mile and a half, in length. Each pen will be stamped with the words, "Property of the Post Office."

Costs under the contract signed this week for the new equipment, the Postmaster General said, involve $64,750, or 13 cents apiece, for the pens; $24,450, or 5 cents apiece, for the ink refills; and $11,550, or slightly less than 4 cents apiece, for the chains.
